

An aerial photograph of a coastal town, likely in Croatia, taken during sunset. The sun is low on the horizon, casting a warm orange glow over the water and the town. The town is built on a peninsula, with a large harbor in the center. Numerous sailboats are docked in the harbor. The town's buildings are densely packed, with red-tiled roofs. The water is calm, reflecting the sunset colors. In the background, there are more islands and mountains.

Full Distance Triathlon

BIKE

» This bike course is a mix of cool singletracks, fast fire roads, couple of downhills leading to inevitable uphill and mediterranean city cobbles with lots of stairs. The bike leg starts seriously from the start, taking you straight to its most difficult part – ascent towards “Vela straža” viewpoint, after which it's all getting easier – descent to the Čikat camping and cruise along the beachfront. After half of the lap and exciting mini XCO course, you'll be continuing to the Mediterranean city cobbles and stairs only to return to the famous Čikat pine forest.

- » Total ascent - 428m
- » Uphill - 12,96km (44,9%), Flat - 4,5km (15,6%), Downhill - 11,34km (39,3%)
- » 2 Aid stations at 11,8km and 25,7km

Full Distance Triathlon

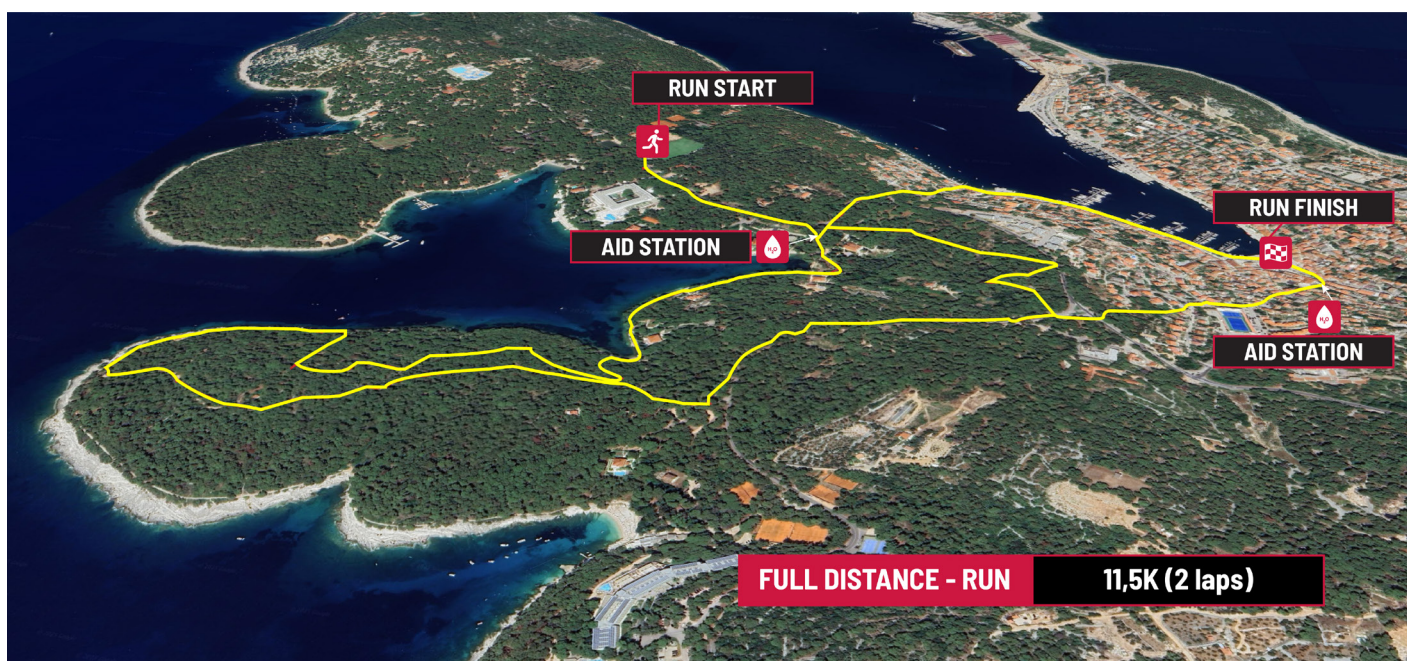

RUN

» The run course takes you along Bellevue and Alhambra hotels to the beachfront (lungomare) with its carefully crafted gravel part perfect for off-road run. From there you'll be going uphill, through the small trim track only to come down to the beachfront again. At the most western part of the small peninsula you'll be hitting hard left to the WWII path, most difficult uphill part only to be rewarded with a downhill soon taking you to the Čikat park and its maze of walkways. Don't worry, from there we'll guide you the aid station and Xterra Croatia bridge after which it's only red carpet to the finish line. If you're doing full distance, you'll be enjoying "the double pleasure" of everything described.

» Total ascent - 168m

» Uphill - 5,04km (43,3%), Flat - 1,8km (15,5%), Downhill - 4,77km (41,2%)
